30% HIGHER TICKETS

15% SALES GROWTH

AN ONLINE ORDERING SYSTEM DESIGNED SPECIFICALLY FOR INDEPENDENT RESTAURANTS

Big chains now **DEPEND** on online ordering as a large part of their business: because the convenience of that technology helps them make more sales at higher average tickets. What if you could offer your customers the same convenience **AND** a better product? You can, with e|tab: **We make online ordering easy.**

YOU CAN EARN MONEY ON YOUR TAKEOUT ORDERS WITH E|TAB'S LOW-TO-NO COST PLATFORM

A restaurant using e|tab with an average sale of \$21.00 can earn*:

Monthly Takeout Volume (Cash, Credit, and Online)	Net New Revenue (From using e tab)
\$2,500.00	\$6.95
\$5,000.00	\$76.36
\$7,500.00	\$145.76
\$10,000.00	\$215.17

The more your customers order, the more you earn!

*If your business differs significantly from the above example, please ask your sales agent for a custom cost analysis.
